

World Marrow Donor Day celebrates and thanks stem cell donors worldwide who are willing to selflessly share their healthy bone marrow / stem cells with patients in need of a transplant.

World Marrow Donor Day (WMDD) started small, the first edition was organised ten years ago. Today, WMDD is celebrated in over 64 countries offering your brand international exposure to a wide, diverse audience. Events and campaigns take place both online and in person, and sponsorship provides opportunities for global recognition through digital campaigns, social media, and worldwide events.
